

Product Discontinuation Notification

seca mBCA 514 integration with Coachcare

Date: 2023-03-28

PDN Number: 2023001

Revision: 001

Introduction

This discontinuation notice informs that seca is discontinuing certain versions of a software product. All affected version numbers are listed in this document.

The intention of this notification is to inform our customers and partners, so that they have the opportunity to take the necessary actions. Should you have any further questions regarding this version discontinuation, we are happy to assist you in order to minimize the impact on your business

Affected parts, versions and products

Affected are the following products:

Product / software	Version
Integration of seca mBCA 514 via seca analytics 115 to the Coachcare platform	All

Coachcare has announced to seca that the interface endpoints used for the integration will be deprecated in October 2023. New endpoints are available, but seca has already decided in 2022 to not maintain proprietary interfaces of the seca analytics 115 anymore. Hence, with deactivation of the endpoints by Coachcare, no integration is possible anymore. The seca mBCA 514 in conjunction with seca analytics 115 can still be used standalone.

Successor

No successor is available for the Coachcare integration with seca mBCA 514. Depending on the use case, region, desired workflow and features, seca can offer different solutions. Please contact your local seca sales organization to discuss possible options.

Timeline

Last order date

This date determines the last opportunity to place an order. All orders placed before will be accepted. All orders placed after this date will not be accepted. Instead, you have to order the substitute/successor product.

Last time installation date

The last time installation date is the point in time where the last installation of a software or firmware product is carried out by seca. After this point the successor version or product will be used.

End of maintenance

Any maintenance or repair of the hardware or software product will not be performed anymore after this date.

Maintenance includes, but is not limited to the following actions:

- Implementation of new features and functions
- Fixing of errors ("bugs") in the software or firmware

End of support

The end of support date is the date at which all support activities of the product are no longer available. This includes, but is not limited to the following actions:

- immediate support to the partner or customer for technical issues in the field
- support including technical assistance for existing or new installations

End of life

The time where the solution can no longer be used.

Discontinuation	Date
Last time order date	Already passed
Last time installation date	Already passed
End of maintenance	Already passed
End of support	2023-03-31
End of life	2023-09-30
